

Advanced Energy Works for Michigan

Ken Zebarah is the Territory Manager of Michigan and Indiana for Harvest Energy Solutions of Jackson, Michigan. Ken has become a leader in the renewable energy community by developing hundreds of small-scale solar projects throughout the Midwest, primarily in Michigan. He holds a B.S. in Mathematics with a Physics minor and used this to become an associate engineer for Harvest Energy Solutions in 2012. Ken now sits as the youngest member of the board of directors of the Great Lakes Renewable Energy Association. Ken has built many valuable relationships with other industry experts, organizations, utilities, and universities.

The success of Ken and similar individuals is extremely important to the Michigan economy. The projects that have been developed employ several construction crews, electricians, engineers, and other administrative positions. Aside from these direct employees, these projects are supporting financial institutions and further research and development among other benefits.

Harvest Energy Solutions Provides cost effective renewable energy for agriculture, commercial and residential customers throughout the Midwest.

KEN ZEBARAH

Harvest Energy Solutions
Territory Manager
Jackson

"I love working in the solar industry because I have the opportunity to improve our environment while also financially benefitting residents, farmers, businesses, and the Michigan economy."
